Hannover, Germany

EMO
NOVEMBER

INTRODUCTION EMO -World's leading trade fair for machine tools and metal working

Scheduled to take place from 18 to 23 September 2023 in Hannover, Germany.

For the first time in a long while, EMO 2021 offered the metalworking industry the opportunity to meet face-to-face on an international stage, make new acquaintances and exchange ideas on a large scale. All of this makes one optimistic when it comes to the future of the trade show business and has everyone involved looking forward with confidence to the industry's next highlights. One is undoubtedly EMO Hannover 2023, which relaunched in September 2021. The industry can eagerly await the reunion in 2023.

PROFILE

Visitor Profile

Visitors of this show can freely explore the various areas, can personally meet the exhibitors to consult about the products, and can build new connections. Over 50% of EMO attendees are expected to come from outside Italy, primarily from Europe & Asia. That means, as the EMO 2023 dates approach its commencement, an increased number of foreign visitors will start looking for accommodation. So, plan your trade show booth at EMO with an experienced booth construction company in Europe who can assist you with tech and business-oriented stands.

HIGHLIGHTS

EMO Hannover is the breeding ground for innovations, key debates, and new business partnerships. At no other fair in this sector will you experience so many trends and new developments close up – because the exhibitors have long since aligned their innovation cycles to their presentations at EMO. Appropriately the organisers have given the exhibition a theme: Innovate Manufacturing.

“As one of the world’s leading trade fairs for production technology and a significant event in the sector, we are strengthening our pledge to offer all fair participants a complete overview for their qualified decisions to participate. In our role as an international business platform, we promote effective networking and the cross-sector communication of ideas – 365 days a year,” say the organisers.

“Under the banner ‘Innovate manufacturing’ we present to you the latest trends in technology, strategy, and organisation. Our future insights provide you with a continuous stream of topical reports from experts in the manufacturing industries and related fields – before, during, and after the trade fair.”
